| 15 to 18 in. " " | 2.25 | 2.00 |
| <u>CRYPTOMERIA</u> japonica lobbi, compacta, 20' | | LOBB CRYPTOMERIA |
| 15 to 18 ft. | 65.00 | |
| 18 to 22 ft. specimen | 90.00 | |
| 22 to 25 ft. specimen | 120.00 | |

1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the problem and the objectives of the research.

2. The second part of the report is a detailed description of the methods used in the study. It includes a discussion of the experimental design, the data collection procedures, and the statistical analysis techniques.

3. The third part of the report is a presentation of the results of the study. It includes a discussion of the findings, the interpretation of the results, and the conclusions drawn from the study.

4. The fourth part of the report is a discussion of the implications of the study. It includes a discussion of the limitations of the study, the strengths of the study, and the suggestions for future research.

5. The fifth part of the report is a conclusion. It summarizes the main findings of the study and the overall conclusions drawn from the research.

6. The sixth part of the report is a list of references. It includes a list of the books, articles, and other sources used in the study.

7. The seventh part of the report is an appendix. It includes a list of the tables, figures, and other supplementary material used in the study.

8. The eighth part of the report is a glossary. It includes a list of the terms and abbreviations used in the study.

9. The ninth part of the report is a bibliography. It includes a list of the books, articles, and other sources used in the study.

(1)

1. The first part of the report deals with the general situation of the country and the progress of the work during the year.

2. The second part of the report deals with the results of the work during the year.

3. The third part of the report deals with the financial statement of the year.

4. The fourth part of the report deals with the general conclusion of the year.

5. The fifth part of the report deals with the general conclusion of the year.

6. The sixth part of the report deals with the general conclusion of the year.

7. The seventh part of the report deals with the general conclusion of the year.

8. The eighth part of the report deals with the general conclusion of the year.

9. The ninth part of the report deals with the general conclusion of the year.

10. The tenth part of the report deals with the general conclusion of the year.

11. The eleventh part of the report deals with the general conclusion of the year.

We are the manufacturers of
"ROOTS-THRU PLANT POTS"
with reinforced rolled edge

No longer necessary to remove pots
before planting, thus minimizing
replacements. Instructions on each pot.

Suitable for Potting Roses, Shrubs, Bulbs,
Perennials, and many other items for late
planting in full flower. Longer selling season.

ROSE POT

Top Diameter 7 in.
Height 9 in.
Bottom 5 in.
(200 per carton)

Per 100 \$6.00
Per 1000 50.00

Weight, 25 lbs.
per 100 pots

Bottom Flaps Folded

PERENNIAL POT

Top Diameter 6½ in.
Height 6 in.
Bottom 5 in.
(200 per carton)

Per 100 \$5.00
Per 1000 40.00

Weight, 20 lbs.
per 100 pots

Samples on Request

ROOTS-THRU POTS

Plant Pots in Ground

When placing pots on top of ground, leave a
little air space around each pot.

(Roses, shrubs, vines, bulbs and perennials
listed in our catalog are in 7-inch
